

Assignment 1

Context

- Create a web site on a topic of interest:
- The techniques and skills to be demonstrated will be based on both lectures and labs for weeks 1-5 of the Web development module
- You will be assessed on technical (e.g., features), and organisational (e.g., file naming scheme) and visual aspects.
- You will also submit a short reflection on your achievements in the project

Structure & Style

- Typically 5 - 7 separate html pages + 2-3 css style sheets
- A simple and clearly signposted Navigation mechanism
- A pleasing multi-column layout, including header and footer sections
- Suitable and appropriate imagery
- Appropriate use of basic design principles, including font & colour aspects

General Characteristics

- Consistency across pages
- Clear and consistent file naming scheme
- Clear and consistent site structure (e.g., folders)
- Clear and consistent code nesting and indentation

- Use HTML tags + css features introduced during the class
- You may include HTML + css not covered if you think they make sense in the context of the site you are developing + you understand them
- Multi-columns/grid layout
- Use a combination of text and images, where appropriate
- Use of classes and ID attributes as appropriate
- NO Javascript

Submission

- All files included in your website as a single zipped archive, submitted via moodle
- The project will be observed in Chrome with standard desktop orientation
- The main site entry point is to be 'index.html'.
- The submission is to be accompanied by a completed reflection document (word - template provided)
- This template is to include a url of the deployed site (if you deployed it)

Content/Theme

- The content does not have to be original - although 'lorem ipsum' content is NOT recommended.
- Successful projects are often focussed on a special interest of yours.
- The textual content may be a combination of original and sourced text

Typical Projects

- An organisation or club
- A hobby or pass time
- A service (shop) or business
- An event
- A scientific or historical topic
- A location or set of locations
- A specific item (e.g. house, bike, car)
- A specific walking trail
- A Fashion or Life style concept

Grading Spectrum

Grade Band	HTML Content	HTML Structure	CSS Rules	CSS Structure	Design
Baseline	<i>3-5 pages, Text</i>	<i>Well formed (without html errors)</i>	<i>Clean Simple Layout & Navigation</i>	<i><u>Well formed and correct</u></i>	consistent use of appropriate fonts simple approach to colour
Good	<i>5-7 pages Text + Images Consistent naming for files/folders</i>	<i>Consistent Indentation Effective use of classes / Ids</i>	<i>Multicolumn Layout, Simple Navigation</i>	<i>Concise and efficient</i>	each page having a distinct theme /logical flow of content
Excellent	<i>7+ pages</i>	<i>Appropriate use HTML 5 Semantic Elements</i>	<i>Context Sensitive Navigation</i>	<i>Multiple stylesheets, some reusable</i>	Integrated, legible, clear & coherent design
Outstanding	<i>Media (video, audio)</i>	<i>EJS Templates</i>	<i>EJS Layouts</i>	<i>EJS Partial</i> s	More sophisticated colour usage, mood, theme (colour wheel)

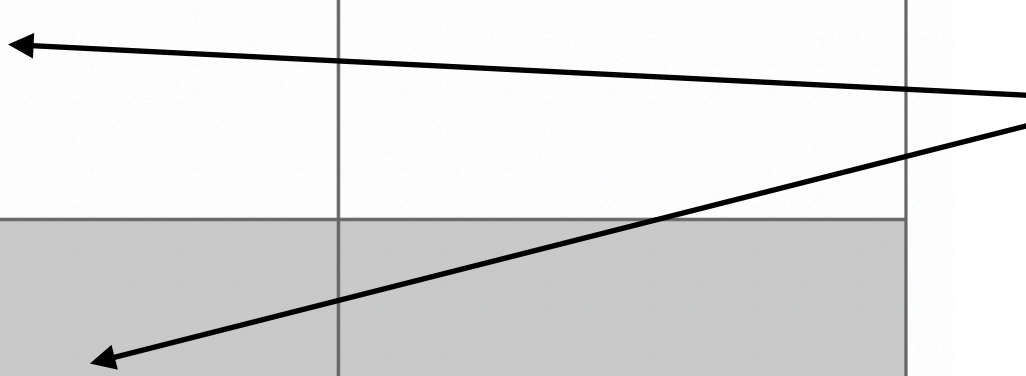

Project Reflection Form

Student Name : _____
Url : _____

Grade Band	HTML Content	HTML Structure	CSS Rules	CSS Structure	Design
Baseline					
Good					
Excellent					
Outstanding					

Enter short notes in each section summarising your achievements
